

CO-1: On completion of this course, the student will be able to understand *Infection: Mechanism of Infection, Virulence (Toxigenicity), Transmission of Infection.*

CO-2 : On completion of this course, the student will be able to understand *concept of pathogenicity.*

Instructions:

1. Attempt all the sections.
2. Assume missing data suitably, if any.

CO: Course Outcomes mapped with the respective question

KL: Bloom's knowledge Level (K1, K2, K3, K4, K5, K6)

K1-Remember, K2-Understand, K3-Apply, K4-Analyze, K5-Evaluate, K6-Create

Section-A

Attempt all questions of this section.

(2 x 6 = 12 Marks)

Q.No.		Questions	CO	KL
1.	a	List different steps involved in infection?	1	K1
	b	What is toxigenicity?	1	K1
	c	Enlist and define different types of toxins produced by bacteria ?	1	K1
	d	Enlist various sources of infection?	2	K1
	e	What are different types of exotoxins?	2	K1
	f	Enlist different determinants of virulence?	2	K1

Section-B

Attempt any two questions of this section.

(7 x 2 = 14 Marks)

Q.No.	Questions	CO	KL
2.	Explain different ways of transmission of infection?	1	K1
3.	Differentiate endotoxins and exotoxins?	1	K1
4.	Explain various determinants for pathogenicity?	1	K1

Section-C

Attempt any two questions of this section.

(7 x 2 = 14 Marks)

5.	Explain the mechanism of infection?	2	K1
6.	Explain LD50 AND ID 50?	2	K1
7.	Explain exotoxins with their mechanism of action?	2	K1

Attempt all questions of this section.

Section-D

(10 x 2 = 20 Marks)

Q.No.	Questions	CO	KL
8.	Explain the progression of disease in detail?	1	K1
	Or		K1
	Describe the various portals of entry of pathogenic microorganisms into the human body?	1	K1
9.	Explain the chain of infection and discuss methods for interrupting transmission.	2	K1
	Or		K1
	Explain the different types of infection with suitable examples.	2	K1
